

Seacoast Stormwater Coalition Meeting

**Dover Community Services Building, 271 Mast Road
Dover, New Hampshire**

Wednesday, July 12, 2017, 1:00 – 3:00 p.m.

- 1. Introductions:**
- 2. NHDOT Drainage System Mapping Effort:** Mark Hemmerlein, Water Quality Planner, NHDOT Bureau of the Environment – NHDOT is partnering with UNH Technology Transfer (T2) and the Regional Planning Commissions to develop a cloud based drainage collection system for towns, cities and the state. Mark will provide an overview of the project and discuss how this may provide resources for large and small community MS4 mapping efforts.
- 3. Water Quality Testing in Hampton:** Chris Jacobs P.E. Director of Public Works, Hampton - Hampton has been testing the brackish water leaving the marsh and passing under Route 101 since last February with very variable results. Chris will share their experiences.
- 4. Rockingham Planning Commission Update:** Julie LaBranche and Jenn Rowden, Rockingham PC will provide an update on the MS4 Permit Stormwater Technical Assistance Grant Program.
- 5. Subcommittee Updates:**
- 6. General Announcements:**
- 7. Other Business?**
- 8. Next Meeting Date and Agenda:**
