The NHDES Local Source Water Protection Grant Program (LSWPGP) has just released its 2021 grant application and provides up to \$20,000 per grant project (annually) to protect drinking water resources. Specifically, grant money is available to develop and implement programs to protect existing (active or planned) sources of public drinking water. The application deadline is November 2, 2020.

Activities that protect source water, conducted under US EPA's Small Municipal Separate Storm Sewer System (MS4) permit, including identification, monitoring and elimination of illicit discharges, particularly high priority outfalls that discharge to drinking water sources or within source protection areas, conducting public education and the design/installation of structural BMPs may be eligible, provided they meet the eligibility criteria as described in Section 6 of NHDES grant application. Routine operations/maintenance activities are not eligible.

2. **Upcoming meeting dates for 2020 – Mark your calendars!** Meetings will occur on the 3<sup>rd</sup> Wednesday of each month. We will continue working on the elements necessary for year 2 requirements of the permit and update the SWMP template as needed. Following are the topics that are planned for the monthly meetings. Please note that topics may change dependent on priorities identified during the year.
