

PARKING AND BUILDING ACCESS

The management company has asked that all NRPC meeting attendees **refrain from parking in the upper visitor lot**. There is ample free parking available to our guests in the **lower tenant lots**.

Once you have parked, you can enter from the lower entrance next to the covered garage. The door is locked but actively monitored by building security who can let you in. In the rare event that a security agent is not present, or your arrival is outside of a scheduled meeting, you can use the intercom to call NRPC and we will buzz you in.

Lastly, please take the elevator to the third floor and follow the directional signage to Suite 310.
